Honeywell

THE POWER OF **CONNECTED**

FIT OUR CONTROLS AND BE CONFIDENT YOU HAVE CHOSEN THE RIGHT PRODUCT

Boiler Plus is a major change to Building Regulations that is coming into force in April 2018

Here's what you need to know with regard to our heating controls:

1. All gas boilers must have 'controls that programme the system to come on and off at set times, and set the temperature'. This is commonly known as boiler interlock.

2. If you are fitting a gas combi boiler, you must fit at least one additional energy efficiency measure:
   - A heat flue recovery system **OR**
   - Weather compensation **OR**
   - Load compensation **OR**
   - Be in control with automation **AND** optimisation features

The table on the right shows our Boiler Plus Compliant products for use in either system or combi boilers.

HONEYWELL BOILER PLUS COMPLIANT CONTROLS	
When fitting a Combi Boiler	If you want to control a combi boiler you need to have a set of controls that encourages energy efficiency

PRODUCTS

All T6 Models ✓   All T4 Models ✓

RF² Packs 1 & 5 ✓   evohome ✓

When fitting a non combi boiler with time and temperature controls	If you want to control a non - combi boiler you need to have a set of time and temperature controls

PRODUCTS

T6360 when fitted with time control ✓   RF² Packs 2 & 3 ✓   All T4 Models ✓

All ST9000 models when fitted with a room thermostat ✓   Y87RF when fitted with time control ✓   All T6 Models ✓

DT90 & DT92 when fitted with time control ✓   evohome ✓

HONEYWELL BOILER PLUS COMPLIANT PRODUCT CODES	
PART NUMBER	**DESCRIPTION**
Boiler Plus compliant products - for use with Combi Boilers	
ATP921R3100	evohome smart wireless programmable thermostat
T4H110A1021	T4 Wired programmable thermostat
T4H310A3032	T4M Wired load compensating programmable thermostat
Y4H910RF4003	T4R Wireless programmable thermostat
Y6H910RW4022	T6R Wireless Smart programmable thermostat
Y6H910WF1011	T6 Wired Smart programmable thermostat
Y6H920RW4026	T6-HW Wireless Smart programmable thermostat with hot water control
Y9120H2009	Sundial RF² Pack 1 - Wireless enabled timer and wireless thermostat
Y9520Z1007	Sundial RF² Pack 5 - Wireless enabled 2 zone programmer and 2 x wireless thermostat
Boiler Plus compliant products - for use with non Combi Boilers	
Y9420H1008	Sundial RF² Pack 2 - Wireless enabled programmer and wireless thermostat
Y9420S2005	Sundial RF² Pack 3 - Wireless enabled prog, wireless stat and wireless cylinder stat
Timers and programmers paired with a room thermostat for non combi boilers	
ST9100A1008	ST9100A - 24hr Timer
ST9100C1006	ST9100C - 7 day Timer
ST9100S1007	ST9100S - 24hr Timer
ST9400A1002	ST9400A - 24hr programmer
ST9400C1000	ST9400C - 7 day programmer
ST9400S1001	ST9400S - 24hr programmer
ST9500C1015	ST9500C - 24hr programmer
T6360A/B/C	T6360B - Mains voltage thermostat
DT90E1012	DT90E - Low voltage digital room thermostat
DT92E1000	DT92E - Low voltage wireless room thermostat
Y87RF2024	Y8YRF - Wireless singlezone thermostat
