

DISCOVER THE
GREENSTAR STYLE RANGE

STYLE IS HERE

The Greenstar Style range has arrived, and it is beautiful. Available with a choice of high gloss black or white, our top of the range Style boilers have been designed to deliver the highest levels of heating comfort for your home.

Yes, it's a boiler, but not as you know it.

THE FUTURE IS STYLE

For more than 50 years, we've developed pioneering heating and hot water appliances to warm homes across the UK. Now, building upon the foundations of our award-winning Greenstar boiler range, we've created a stunning, design-led boiler for the heart of your home without any compromise on quality or performance.

Our Style boilers feature innovative new technology that will maximise your comfort and help to optimise heating and hot water performance. For instance, our optional unique Intelligent Filling System constantly monitors your heating system's pressure and, if ever this drops, it will automatically re-fill your system. This takes away the need to manually top up your boiler's system pressure.

STYLE IS POWER

Packed with innovative new features which help keep your boiler performing at its best, Style is developed to suit virtually any domestic heating requirement.

It is our most powerful and connected wall hung boiler yet, and comes with the renowned reliability of Worcester Bosch technology.

The Style range is capable of delivering up to 50kW with the highest hot water flow rates of any wall hung combi-boiler on the market. This makes the Greenstar Style boiler range perfect for homes of any size, with the power to efficiently heat large homes with two or more bathrooms.

BUILT TO SUIT YOUR LIFESTYLE

The Style range has been designed to suit your lifestyle, as well as your home. With an easy-to-use full colour display, and connectivity with the wireless Bosch EasyControl, you have the power to effortlessly control your home's heating and hot water from anywhere.

QUIETLY KEEPING YOU WARM

Not only does the Style range feature a fantastic new design, more power and greater connectivity, we've even made it one of our quietest boilers too.

Style has been designed to sit comfortably in any room of your home to keep you cosy in the cold winter months, and you may not even know it's there.

FUTURE PROOF YOUR HOME

We want you to have the same confidence in our boilers as we do, which is why we are offering up to a **12 year guarantee*** on the entire Greenstar Style range.

Choose the brand recommended by Which? for 10 years.

'Reliability is the single most important consideration when buying a new boiler and Worcester Bosch has it in spades'

Which? Best Boiler Brands Report 2019

CONTROLS

The Greenstar Style range is compatible with a range of controls, offering you simple solutions to manage the heating and hot water to suit your home.

WIRELESS BOSCH EASYCONTROL

The wireless Bosch EasyControl is a smart internet-connected room thermostat that connects directly to your smartphone. It allows you to control your heating and hot water on-the-go.

GREENSTAR COMFORT + RANGE

The Greenstar Comfort is an intelligent programmer and a room thermostat allowing access to control functions from a single, easily accessible location.

THE BOILER, BUT NOT AS YOU KNOW IT
