I.LIFE

A STEP AWAY
FROM ORDINARY.

Pure and uncomplicated, *i.life* is the expression of you.

A collection that looks ahead to a future where the possibilities feel endless. In creating *i.life*, Ideal Standard has crafted three ranges, each with their own design character and technical features, but all with the same spirit and energy.

These are simple geometric shapes combined with gentle curves, flowing across a varied range that lets you celebrate what makes you different. Built to last and engineered to perfection, a bathroom from Ideal Standard functions without fuss so you can relax in your home or go out and enjoy life. A collection, created by the multi-award-winning Palomba Serafini Associati studio, that feels accessible and optimistic.

i.life creates a space which quietly inspires, where everything is inclusive and within reach.

This design aesthetic is reflected throughout a basin range with solutions to suit every shape and size of space, whether it's a family bathroom or a compact cloakroom. Choices span from the larger 80cm basin to the 35cm handrinse basin, with semi-counter-top, vanity and corner versions also available.

This is where busy days begin and end. A place to look ahead to experiences yet to come and think back to good times with family and friends.

With every flush, RimLS+ delivers a powerful whole-bowl clean with no place for bacteria to hide. Splash-free and easier to clean, RimLS+ is the go-to solution for busy bathrooms.

88% of households would buy an Ideal Standard Rimless+ toilet. A toilet with excellent hygiene performance.*

*Result of a user survey commissioned by Ideal Standard and conducted by the institutes TCV-/isi-GmbH (n = 1,000 households with residential property – Germany n=500; Italy n=500), based on the outcome of external tests conducted by X-Tech srl for Ideal Standard measuring hygienic parameters of the toilet flush (unwashed toilet area, number of water splashes). Which i.life shower enclosure?

Ideal Standard understand what it takes to make the perfect shower environment. The main considerations for planning are access, space and position. From ingenious door mechanisms that work in the smallest ensuite to spacious enclosures for family bathrooms, i.life has a solution for every conceivable scenario.

Expert engineering means our i.life shower enclosures and bath screens are full of clever features which make them not just a pleasure to use but easy to install, clean and maintain.

- Features**

Concealed fixings
The cover profiles click easily into place during installation and combine with top caps to conceal all fixings.

Smooth running wheels
Quality components ensure doors glide along effortlessly and silently.

Horizontal adjustment
Allows perfect fitting to out-of-true walls.

Power shower proof
Enclosures have been tested to ensure that even with the most invigorating of showers the seals remain watertight.

Corner Installations

Alcove Installations

10 YEAR GUARANTEE

GUARANTEE

Enclosures, wetroom panels and baths screens have a 10 year guarantee

8mm GLASS

GLASS THICKNESS

8mm toughened safety glass.

IDEALCLEAN

Reduces cleaning time by up to 90%. A special coating makes glass easier to clean and it stays cleaner for longer.

CLICK & CLEAN

Lower wheels and panels can be released for cleaning. The panel clicks back into position for a watertight seal.

25mm

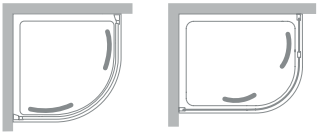

HORIZONTAL ADJUSTMENT

Profile can be adjusted to allow for untrue walls.

Corner Installations

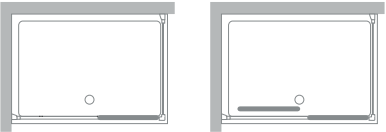

Quadrant/offset quadrant

These curved enclosures suit almost any bathroom design, creating an open environment, even in restricted spaces.

Sliding Door with side panel

Sliding doors offer maximum access where there is limited space to open a door. They can also work well in larger spaces to create luxurious showering areas.

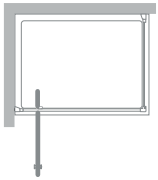

Corner entry

When space is limited on either side of a shower enclosure a corner entry with sliding doors offers an effective solution.

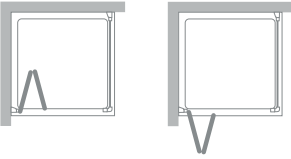

Pivot door with side panel

These doors swing open to offer wide access, which when combined with a side panel creates a light and airy showering area.

Infold/bifold door with side panel

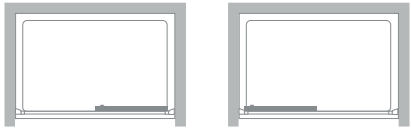

When there isn't room to open a door an infold door is a good solution. It offers wide access in tight spaces.

Alcove Installations

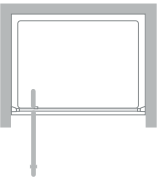

Sliding door

Sliding doors are a practical solution for alcoves, especially larger spaces. The door glides on smooth running wheels for access.

Pivot door

These doors work well in alcoves allowing the maximum showering area combined with the maximum access.

The infold door is a great option for smaller spaces. It folds inwards to provide full access.

Ceraplan.

A mixer for every situation

More modern, slimmer, simpler, and smoother than ever, we've redesigned a classic piece, updating it to help you face the challenges of modern living, achieving a beautiful balance of style and technology.

Experience the subtle, harmonious control of Ceraplan. Softened lines on the outside, solid German engineering on the inside – the Ceraplan brassware range is the centrepiece of your bathroom, 20 years in the making.

IDEALCOMFORT
Ceraplan comes in a variety of what we call comfort height. It means **Ceraplan** adapts to the usage you will do of the tap and will make your every day more comfortable. Height options from 60mm to 250mm.

EASYFIX+
EasyFix+ system makes fitting quicker and easier than ever. It's up to 50% faster than standard fitting, and 15% faster than our original EasyFix system.

BLUESTART
BlueStart delivers only cold water when the tap is in the middle position.

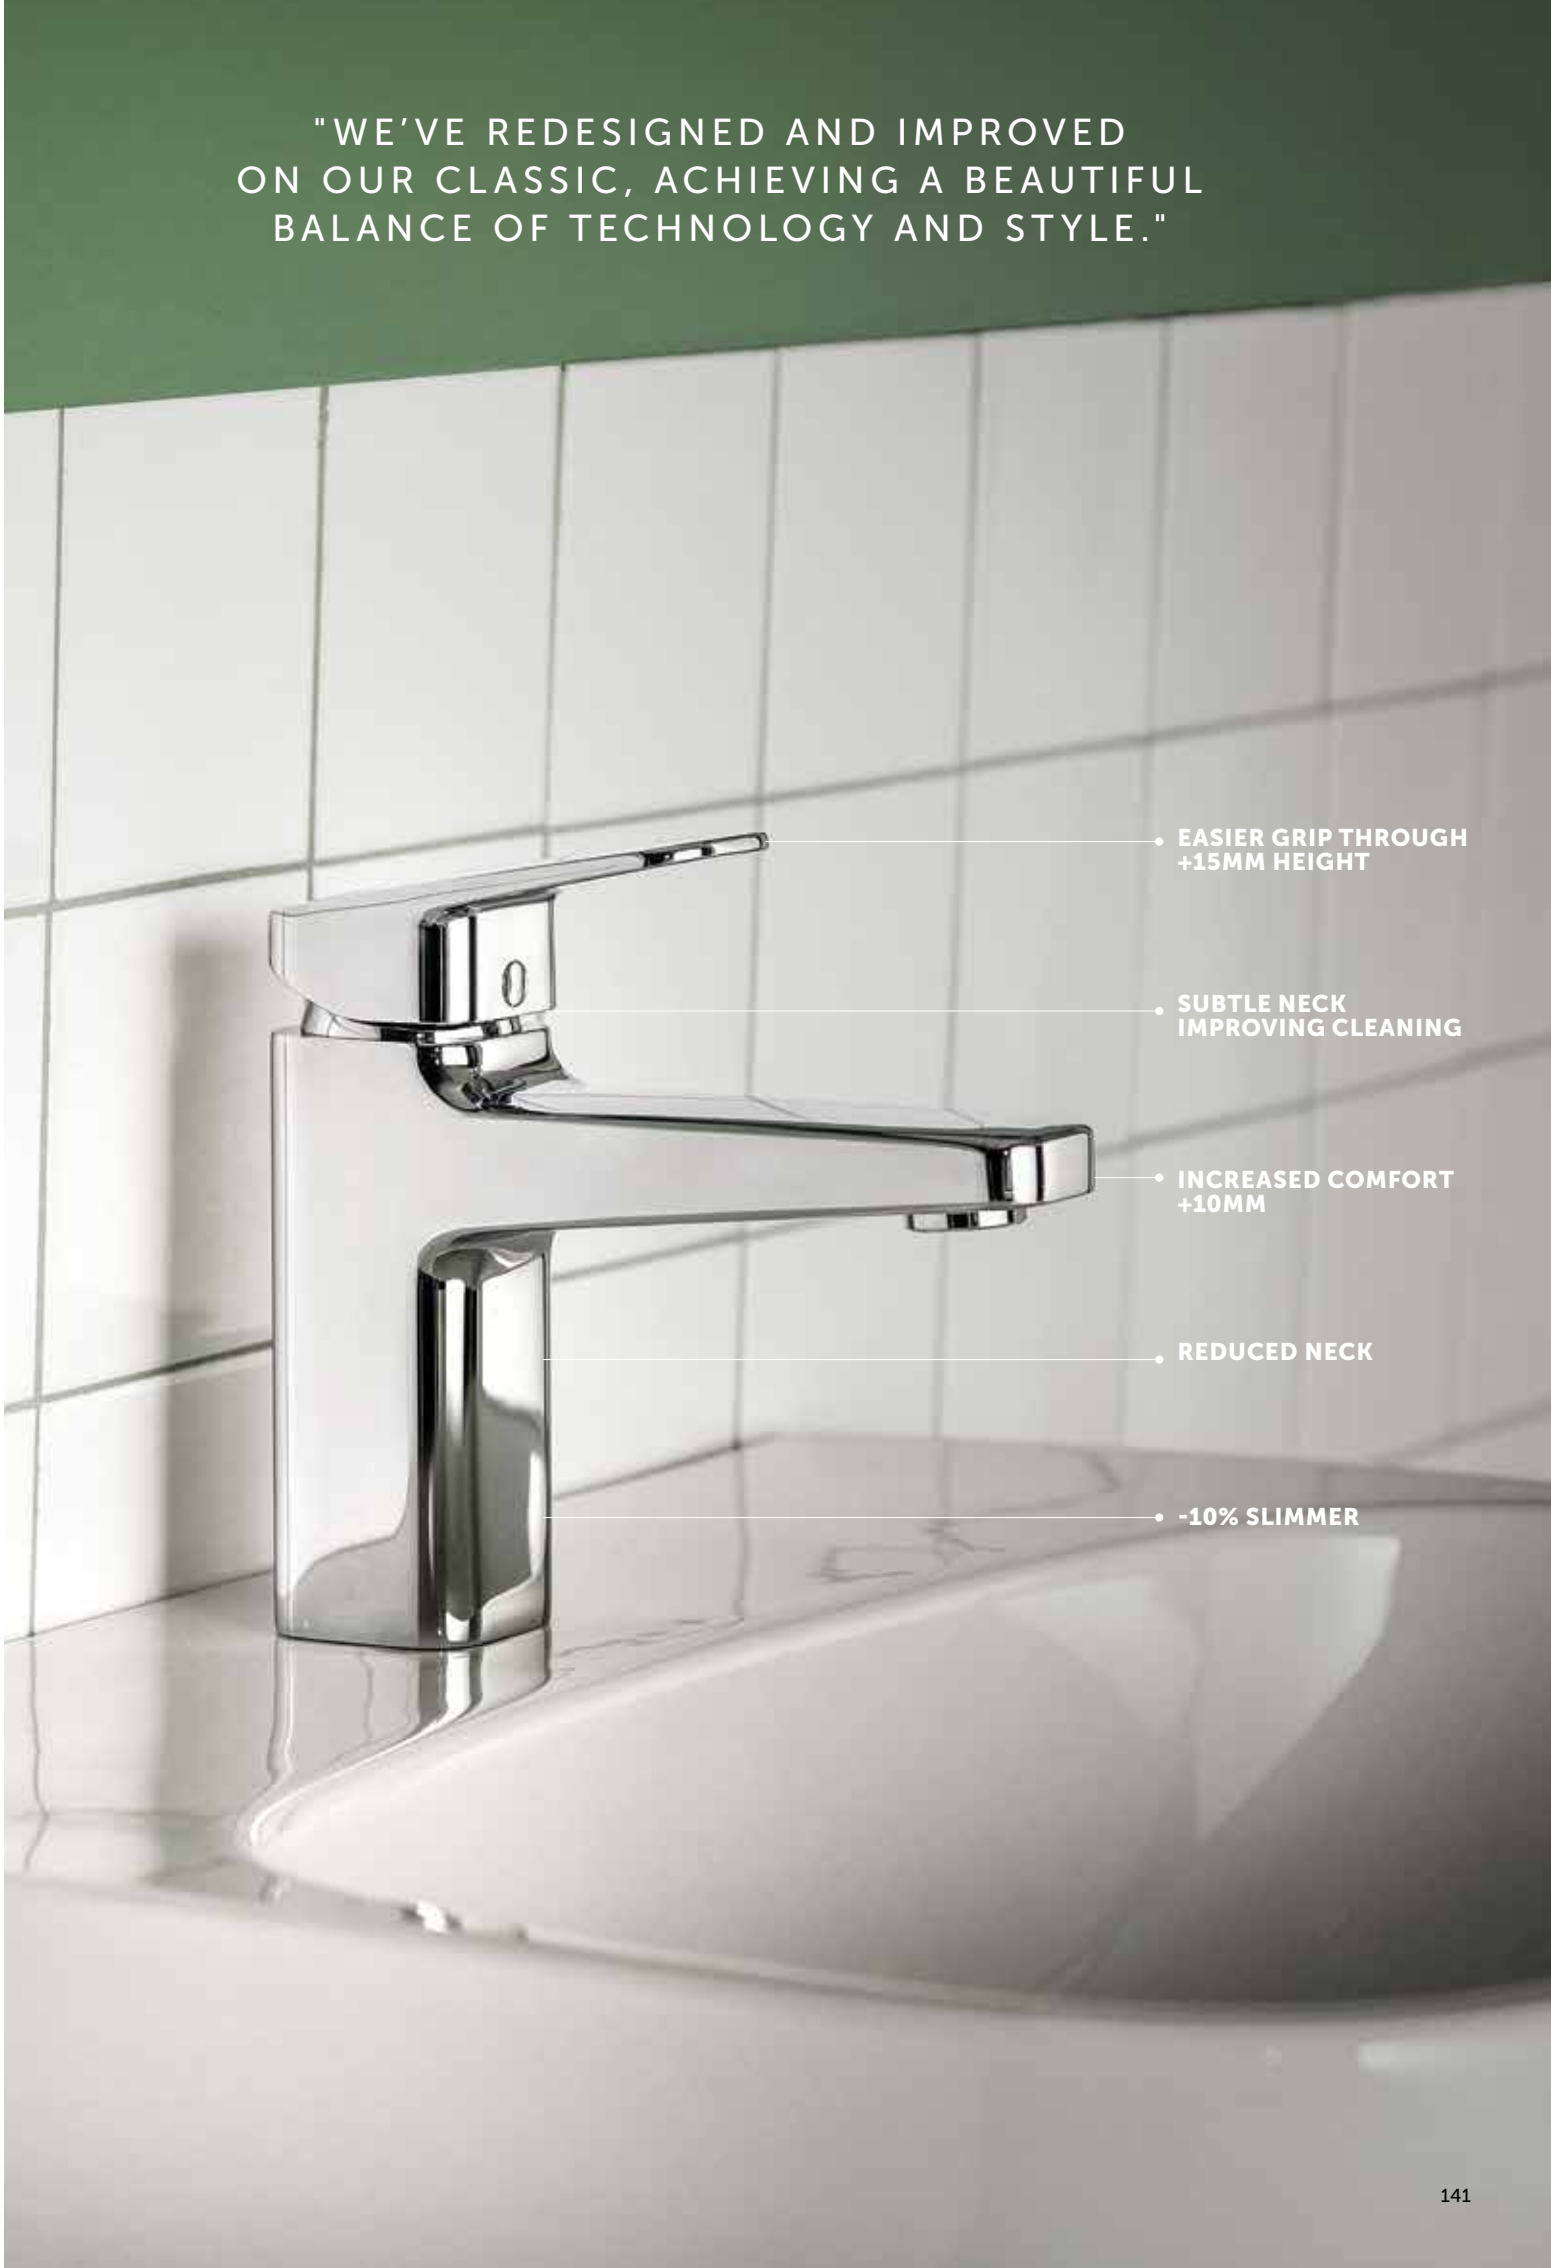

LIGHTMOVE
Enjoy a great experience thanks to the light smooth cartridge which ensure that the water flow is just right for you.

SMARTSHINE
Ceraplan is now easier to clean, thanks to the smooth lines and absence of recesses, and features SmartShine finish – making fittings feel as though they've always been part of the space, but look brand new.

"WE'VE REDESIGNED AND IMPROVED ON OUR CLASSIC, ACHIEVING A BEAUTIFUL BALANCE OF TECHNOLOGY AND STYLE."
