Your Bathroom Your Style

Our brochure has been split into two parts, to make buying your dream bathroom even easier.

Design Inspiration

See pages 6-52

The front section acts as a style and inspiration guide, where you can browse all our collections, view any seasonal trends and decide on fittings, fixtures and finishing touches.

Product Directory

See pages 52-170

The back section is our product directory, which houses all our product information, including the prices and codes, so you know exactly what to order.

Quality, always

There doesn't have to be a choice
between functionality and beauty.

Combining the right manufacturing processes with meticulous quality checks, means that our bathrooms are not just beautiful to look at. All of our products are hand-made or hand-finished, and we only work with the most progressive and innovative manufacturers.

Before any of our products make it into your home and are tested against your own high standards, they first have to meet ours. Because of our unwavering focus on quality, all our products come with a lifetime warranty, so you're free to style your bathroom with the confidence that it will stand the test of time.

Design Inspiration

Define your style. Whether you're looking to update your compact downstairs toilet, a larger en suite, family bathroom or grand bathroom, we have a range of collections that can be customised to create a unique and stylish look.

8

Choosing your Bathroom

Choose your new bathroom using our four simple steps as a guide.

14

Grand Spaces

Bring large bathrooms to life with features such as double bowls and twin units, as well as walk-in showers for an indulgent experience.

26

Compact Spaces

Utilise your smaller bathroom with short projection furniture, smarter storage solutions and compact showers.

10

On Trend

Discover the new and popular trends of this season, so you can keep your bathroom up to date and fashionable.

20

Midsized Spaces

For medium sized bathrooms, we have a range of options designed to brighten up your space and provide additional storage.

32

Traditional Spaces

For period and listed buildings, we have a range of features including chrome taps, accents and flushes to ensure a classic yet timeless feel.

36

Wetrooms VS Baths

Are you a bath or a shower person? Regardless of your preference, explore our wide range of wetrooms and baths, to decide which you'd prefer in your new bathroom.

40

Taps

From stylish accents to statement pieces, taps and mixers are more than just the perfect finishing touches to your bathroom.

42

Showers

Discover our selection of shower solutions, designed to match your preference, style, and budget.

44

Finishing Touches

Finish off your bathroom's new look with added extras such as mirrors, units and towel warmers.

Units

Screens

Mirrors & Cabinets

Towel Warmers & Radiators

52 -170

Product Directory

Choose your product. Create a unique and personalised experience with our wide selection of products. From wall-hung units to free-standing baths and everything else in between, discover the perfect solution for your new bathroom.

Choosing your Bathroom

4 Easy Steps

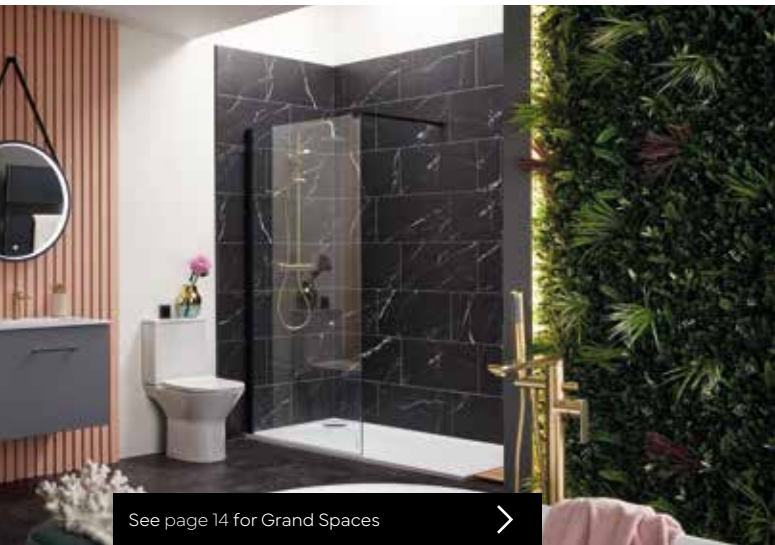

Designing your new, luxury bathroom has never been easier.

Firstly, choose your furniture or basin and pedestal, before selecting the main colours you'd like them to be. We have a wide range of colours available – whether you'd prefer crisp, clean and modern, or more traditional for a classic look.

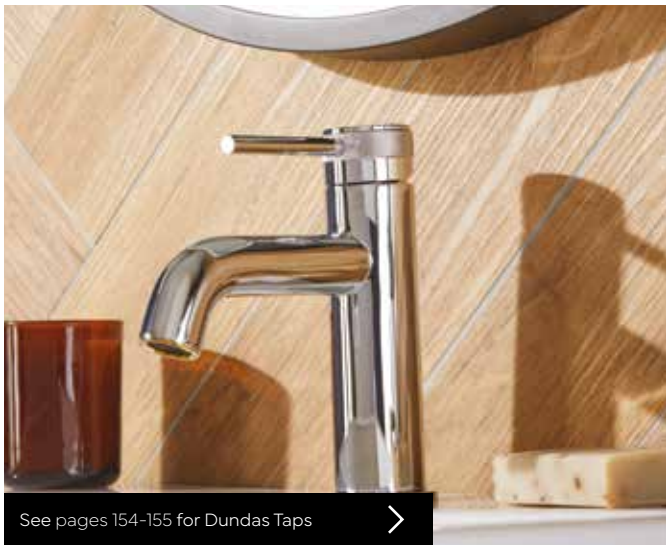

Next, select which fixtures and fittings you'd prefer, including whether you'd like a bath or shower. Finally, complete your look with our selection of mirrors, towel warmers and bath screens.

On Trend

Browse some of the fashionable features you can add to your new bathroom. From discovering unique colour, to ultra-modern Bluetooth cabinets, our selection of on-trend styles will be sure to liven up your bathroom.

Urban Style Furniture

A blend of contemporary and industrial styles for a cosmopolitan look.

The contrast between the Urban Oak finish and dark accents in the Ulva collection will create a standout look to complement any bathroom.

See page 70 for Ulva Furniture

See page 82 for Wall Hung WC's

Wall hung WC's

Maximise your space with our selection of wall hung pans.

Perfect for giving the illusion of more space, wall hung WC's will create a sleek and streamlined look.

Worktops and Washbowls

Innovative basin solutions which are both stylish and practical.

Rather than choosing a more classic style of basin, you can mix and match between different worktops and washbowls to suit your bathrooms overall design.

See page 91 for Washbowls

Coloured Towel Warmers & Vertical Radiators

Compliment your walls with colour.

Adding colour to your walls through towel warmers and radiators can brighten up even the simplest of spaces, as well as giving a premium, luxury feel.

Towel Warmers and Vertical Radiators, see pages 94-101

On Trend

Black & Brushed Brass

If you're looking to make a statement, then black or brushed brass taps and showers are one of the biggest bathroom trends this year.

Not only do these colourways fit in with the booming industrial trend, but they can also add contrast to plainer tiles or walls to make them pop. Brushed brass will give a modern twist to a more traditional bathroom style, while black creates an ultra-chic and contemporary finish to any bathroom.

Blue Furniture

Blue is a colour that encompasses tranquillity, serenity and calm. So, it comes as no surprise that using it in bathrooms has become increasingly popular.

Using blue tones can allow you to create your own, personal oasis from the comfort of your own bathroom. When used against lighter walls or tiles, it gives an almost dream-like appearance, while when paired with darker walls it can create a particularly opulent and high-end feel.

Grand Spaces

Create the ultimate relaxation room with decadent designs for larger spaces.

Having a larger bathroom gives you even more opportunity to let your creativity flow when you pick out your features. If you have a lot of floor space to fill, then a free-standing bath, away from your wall, is a brilliant option to give you the most opulent bathing experience.

To go all out with your shower space, you can also indulge in a large walk-in wet room, shower enclosure and rain shower.

Lomond Furniture, pages 58-64 with Skye WC, page 85 and Mull Bath, pages 112-113 >

Utilise your larger bathroom by creating different zones for your different functions – showering, bathing, washing and relaxation. Within each section, you can use different colours and styles to match or compliment as you see fit. For example, the colour blue signifies calm and serenity, which would work perfectly in your relaxation zone; while grey represents neutrality and balance, so could be used in your bathing or washing zones.

"Add in double bowl options or twin units to create a luxury feeling and create wash spaces for a couple to make their own."

"For an ultra-modern and chic look, choose the Fife furniture range.

Its large storage units offer unparalleled room for storing essentials, while the overall feel is both clean and minimalistic."

Vertical Radiators pages 98-99

Large towel warmers and vertical radiator styles give maximum warmth, especially in winter when larger rooms can be difficult to heat. You can also choose the colours of these to perfectly match the rest of your interior. We'd recommend using darker colours such as Anthracite or Chrome when you have lighter walls, or colours like White or Grey, when your walls are decorated darker. The contrast of this will really bring your beautiful bathroom to life and give it an edge.

Midsize Spaces

Function meets sophistication,
with our personalised designs
for medium sized bathrooms.

See page 69 for Fife Furniture

See pages 58-64 for Lomond Furniture >

See pages 106-107 for Mirror Cabinets >

"Mirror cabinets can be included in your design to provide added storage and extra LED lighting."

If your bathroom space is more medium sized, we have many suitable options available to compliment your space, while keeping a high level of function and quality. Our Lomond Modular furniture gives you plenty of storage options to fit the size of your bathroom. It features sharp, angular lines for a modern edge and comes in four colour options to finish off the look.

Many more sizes and styles to choose from.

See pages 66-67 for Selkirk Furniture >

See pages 122-127 for Cara Shower Enclosures >

Compact wetrooms, shower enclosures or shower baths can be used to give a more luxurious look in a smaller space. In contrast to this, if you're someone who prefers an indulgent bubble bath over a shower, then free-standing baths can be used in a room end or recess to save yourself some space without compromising on style.

"Use bath screens with handles to add more space for hanging towels."

Lomond Drawer in Drawer page 61

Lomond 1000 Twin Ceramic Basin,
see page 60

If you have enough wall space, then you can opt for twin 500mm units to give the added extra of having dual wash basins in just one metre.

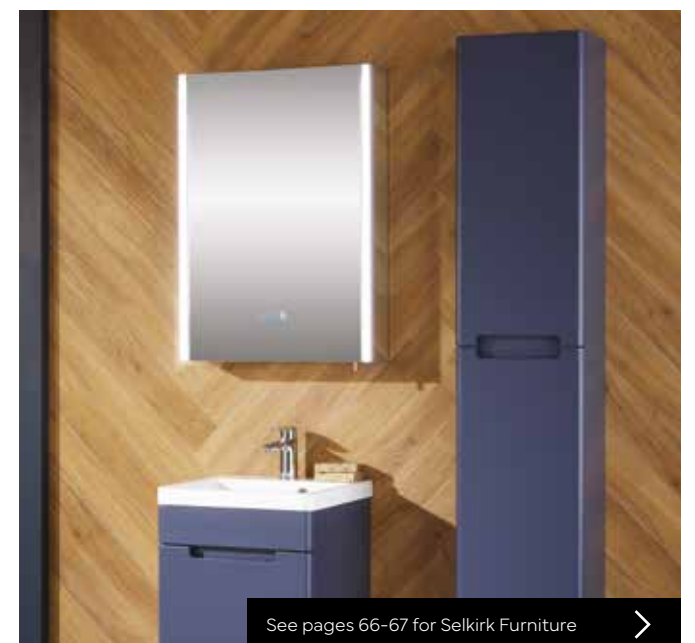

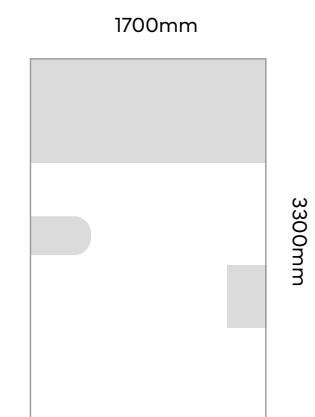

We'd also recommend adding additional towel warmers and vertical radiators to fill more empty space, keep your bathroom cosy and add even more towel-hanging space.

Compact Spaces

Beautifully unique solutions for bathrooms that are small but mighty.

Floorplan

We can help you to utilise your more compact spaces for an efficient yet luxurious result.

Choose from our range of short or mid projection furniture, with wall-hung or back-to-wall options to make your space seem bigger. These fittings can be provided at a standard or comfort height to accommodate for taller or less mobile users.

Traditional Spaces

Compliment a period home with bathroom spaces that take you back in time.

If your home is a listed building, an older cottage or has historical roots then it's often fitting to go with a more traditional looking bathroom, to match the rest of the house. We have many options available for smaller or larger period homes, all of which have an exceptional standard of quality.

Dunbar Furniture available in Fern Green or Ash Grey, see page 74

See page 166 for Balmoral Taps

See page 136 for Dunbar Shower

"For full effect choose a High Level or Low Level toilet which can give a similar effect on a lower budget or in a smaller space."

See pages 80-81 for Dunbar Sanitaryware

See pages 80-81 for Dunbar sanitaryware

Dunbar Cloakroom tap featuring basin brackets, see page 81

For a classic and elegant look, we'd recommend selecting the Dunbar range. For the toilet you can choose a solid wooden seat and chrome flush, along with a matching basin in either the standard or cloakroom style. When it comes to choosing your taps, the Dunbar, Melrose or Balmoral ranges are perfect for adding a retro twist to your new bathroom.

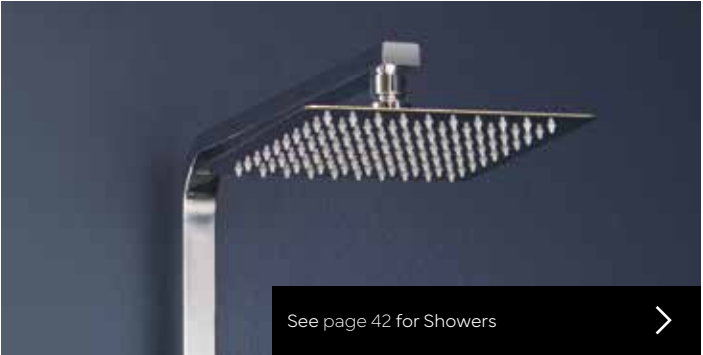

"Finish off your traditional look with the Dunbar radiators, towel rails and a timeless mirror style such as the Avon, Eden or Granton."

Dunbar radiators / towel rails, see page 100

Wetroom VS Bath

A relaxing soak in the bath or a shower experience can really kick start your day.

Many people are considering whether they'd prefer a bath or a wetroom in their new compact or mid-size bathroom. Overall, it depends how much room you have to play around with. You'd also want to consider whether the space would be the only place you'd have for bathing or showering, along with how important having a bath would be for your lifestyle.

"If the bathroom is going to be an en suite or downstairs toilet, a shower enclosure may be able to fit into the corner to save on space."

Indulging in a large 1700 shower tray with a wetroom panel will look modern and chic – especially if you finish the look off with black taps and a rainfall shower head. In contrast to this, if you decide you'd rather have both a bath and shower, you can opt for a shower over a bath and screen to save on your space.

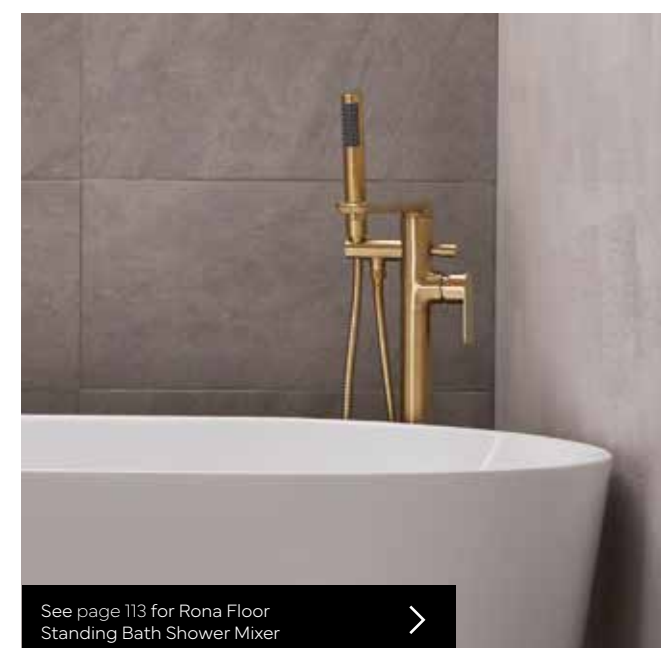

"For a trendy, edgy look, we'd recommend opting for black taps to finish off your bathroom – especially if your general colour scheme is lighter, as black looks super striking against white or grey."

See page 156 for Fife Taps

See page 113 for Floor Standing Bath Shower Mixers

See page 113 for Rona Floor Standing Bath Shower Mixer

Taps

Beautiful statement taps to draw attention to your space.

Whether you're looking for a statement contemporary look or a simple yet stylish accent, our collection of taps and mixers is sure to inspire you. From industrial styles to floor-standing taps and shower heads, we can guarantee that quality is always at the forefront of all our designs.

Dundas Mono Mixer and Push Waste, see pages 154-155

See page 135 for Orkney Series 2

See page 134 for Spey Series 2

Showers

Stunning showers that combine functionality with style.

We have plenty of choice when it comes to choosing the right shower for you, with budgets and designs to suit a range of different spaces – no matter how big or small. We also offer you the option to mix and match your shower by choosing your valve, backplate, handles, shower head and any other accessories, to create the ideal combination.

"For added style and a more luxury experience, we'd recommend choosing a rainfall shower head. They come in varying sizes, shapes and colourways, to create a shower look that's unique to you."

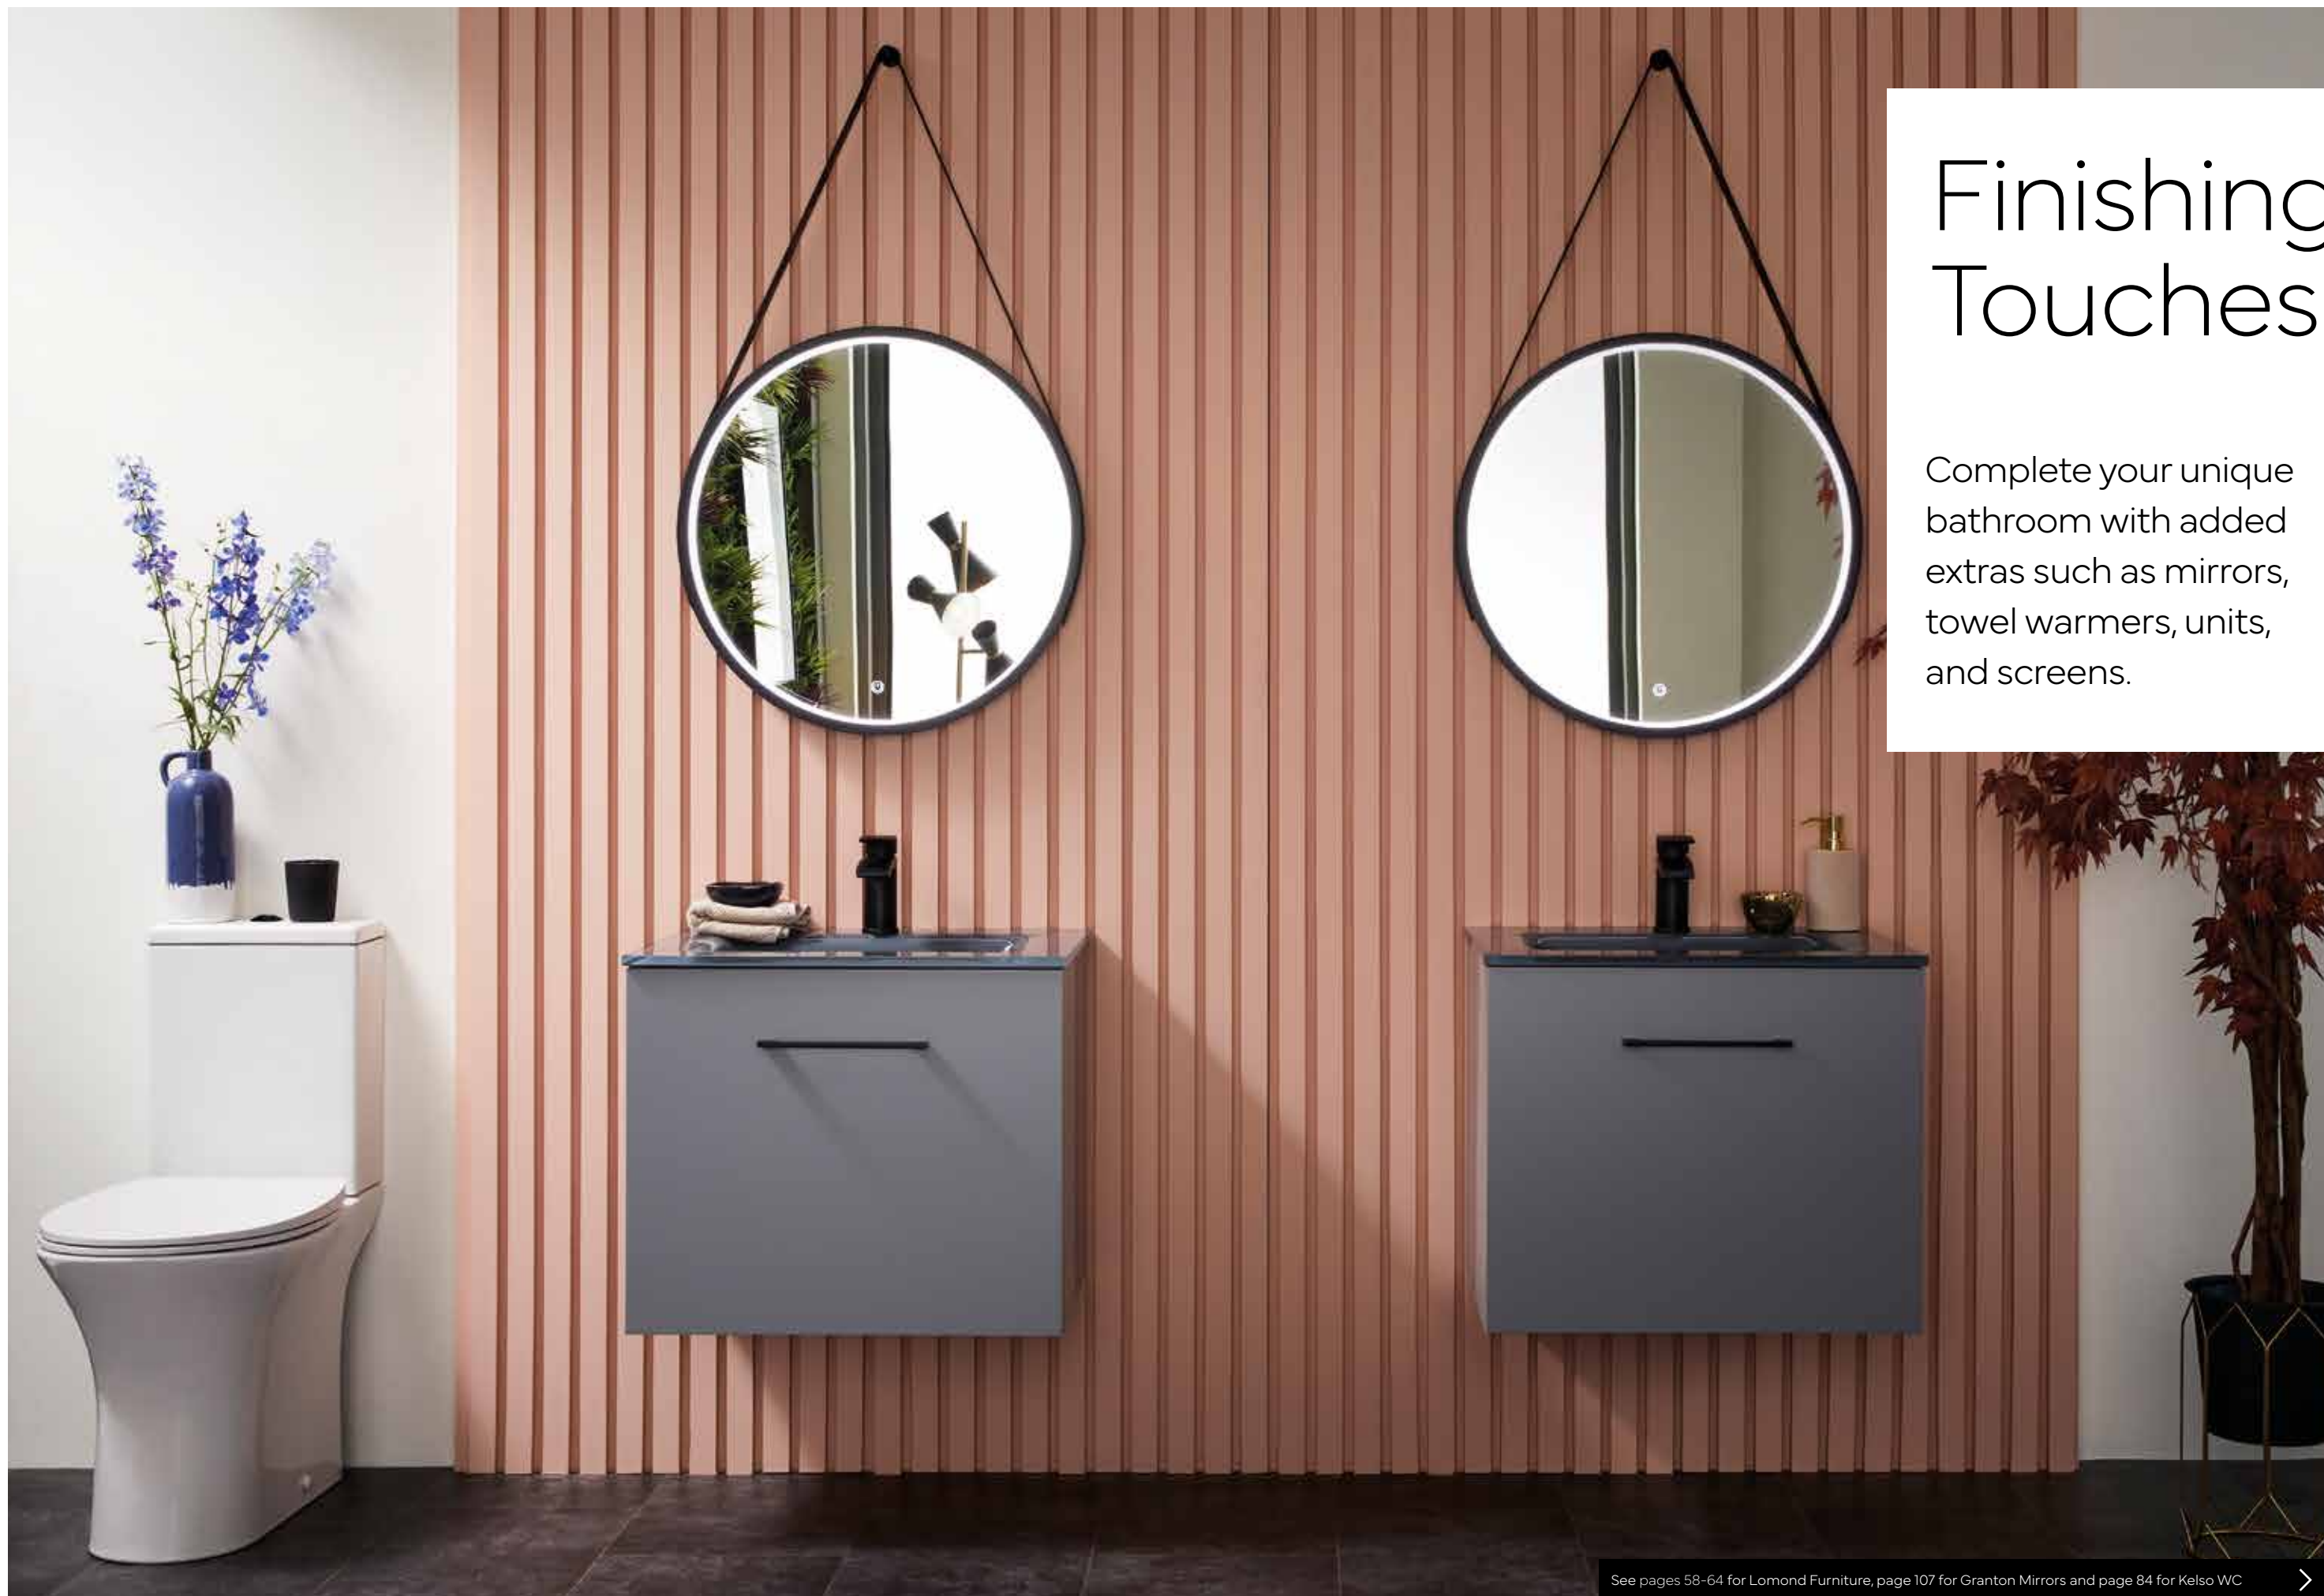

200mm Square and Round Shower Heads, see pages 144-145
Concealed valves see pages 138-142

See page 134 for Spey Series 2

Finishing Touches

Complete your unique bathroom with added extras such as mirrors, towel warmers, units, and screens.

See pages 58-64 for Lomond Furniture, page 107 for Granton Mirrors and page 84 for Kelso WC

FINISHING TOUCHES

Units & Screens

Over shower bath screens can add a stylish finish to your bath, while wall hung, or freestanding units can create a statement and provide storage for bathroom essentials.

Plus, our Elie and Bora designs also include a handy towel rail on the outside for extra towel-hanging space. This is super useful if you only have limited wall space or a smaller budget.

Add extra style to concealed and in-wall cisterns with optional flush plates or larger flush buttons, for a clean and tidy effect. In addition to this, bottle traps and exposed pipework under your counters and basins can be used to add a more traditional edge. These come in a variety of colour options, including black and brass to match the rest of your bathroom

"Utilise tallboys and drawer units to add some extra storage where you need it most"

FINISHING TOUCHES

Mirrors & Cabinets

Our beautiful range of LED mirrors and cabinets can be used to brighten up your walls and add mood lighting.

Some mirrors and cabinets contain Bluetooth speakers for when you fancy a singalong in the shower!

Erol Ultra-slim Mirror, see page 104

FINISHING TOUCHES

Towel Warmers and Radiators

Heated towel warmers and radiators can be a subtle and functional way of filling up extra warm space and accessorising your bathroom.

Rona Towel Warmers,
see pages 97

See page 97 for Canna Towel Warmer

See page 99 for Appin Vertical Radiator

"Choose the colour Anthracite on heated towel warmers for a contrasting effect when you have light coloured walls."

Vertical radiators and towel warmers can be used as a useful extra heat source in smaller, more compact spaces and if you're lacking in space you can always add one in above your bath as handy storage.

See pages 66-67 for Selkirk Furniture >

Product Directory

Here you can create a unique bathroom by choosing from our wide range of products. You can decide to mix and match from our different collections or opt for just one style - it's completely up to you.

Lomond

The versatile range

Lomond offers a modular storage solution, combining great versatility with style.

In a choice of standard depth, slim and L-shape slim options, it's the ideal choice for space-efficient designs and can help maximise those smaller spaces, such as en-suites or cloakroom bathrooms. With its sharp, angular lines, it creates a clean and modern look and comes in a choice of four colour options. Like the home of the loch it is named after, its design resonates calm and tranquillity, perfect for creating your own oasis.

Selkirk

The sleek one

With its rounded edges, built in handles and low-profile design, our Selkirk range offers a sleek and contemporary modular design in a choice of three colour options.

You can then choose from a large selection of taps and mixers to create your own individual look. Craftsmanship is at the heart of our products, and also of its namesake, as the people of Selkirk are known as Souters, meaning cobblers.

Towel Warmers & Radiators

Turn up the heat with our range of towel warmers and radiators.

Heated towel warmers and radiators can be a subtle way of combining style with function. A vertical radiator brings a contemporary twist to even the most traditional bathroom style, whilst the vertical lines draw the eye upwards, to create the illusion of high ceilings. Look beyond chrome - an anthracite finish can accent marble effect tiles or consider slate grey colour palettes for an ultra-modern effect.

Mirrors & Cabinets

Reflect your own personal style and choose lighting solutions to suit your mood.

Our collection of mirrors and cabinets combine style with substance. Find all the features you need and more such as demisters, touch or no touch sensor lighting, charging sockets, Bluetooth speakers and even a colour changing light function which can be swapped and changed to match your mood! All of these options are also low energy and suitable for bathroom use, making them the ideal added extra to finish off your bathroom.

Baths & Screens

Relax in luxury and find your perfect bath solution.

We have everything you need for your bath and shower requirements, from luxurious standalone baths to bath shower mixers. Design wise, there are many different baths to choose from, including L-shaped, oval, square and double ended. We also offer a beautiful range of free-standing baths and taps, to create a stunning centrepiece for your larger bathroom spaces. All are manufactured to the highest standards to ensure they look as good in years to come as when they were fitted.

Shower Enclosures & Wetrooms

Beautiful shower options to power your day.

Explore our luxury range of enclosures, designed to suit all bathroom sizes and designs. Whether you're after shower panels, quadrants or wetrooms, all our products are manufactured from toughened safety glass, with Armaclean technology that keeps it looking like new.

Cara 8mm Shower Enclosures

Design Features

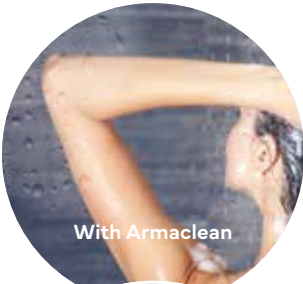

Beauty is all in the details and our fully adjustable two piece cover caps. Designed to fit perfectly to create a stylish and protective finish to all exposed enclosure frame and profile strip top edges.

Choose the handle best suited to your bathroom's overall design. All enclosures are supplied complete with elegantly designed chrome internal and external handles with a strong rectangular cross-section complemented by softer curved ends. Or purchase our alternative handles with an all square styled finish to suit your taste.

Armaclean - a micro layer applied to our glass to help prevent scale and grime build up.

Our clever profile cover strip system combines stylish cover strips to hide all the fixing screws.

Designed with an integrated corner post on all doors compatible with side panels.

Complement any enclosure or wetroom design with our stunning ultra-low profile Talla trays. Only 30mm high and featuring a slip-resistant micro texture surface, hidden 90mm fast-flow waste and secure threaded legs and plinths. See page 131

Quick release rollers & cushion stops. High quality double wheel rollers with smooth ball bearing action ensure a satisfyingly smooth gliding action on all sliding doors, coupled with cushion stops at full opening.

Then add the practicality of single button quick release rollers allowing the complete removal of doors for cleaning.

Cara 8mm Double Door Quadrants

Lifetime Warranty

We are proud to offer you a Lifetime Warranty on the entire range of Highlife products - so you can buy with confidence and enjoy them at leisure.

What our Warranty covers

Our Lifetime Warranty covers faults due to manufacture of any Highlife product purchased by you against material defects for the lifetime of the product. At our discretion, we will replace, in part or whole, any product which is covered by our warranty. If a replacement Highlife product is offered by us, but identical goods are no longer available, then we reserve the right to replace the Highlife product with the nearest equivalent. All electrical items limited to a one year warranty.

Furniture installation and care

We want you to enjoy long and trouble free use of your Highlife bathroom furniture. All timber products are prone to adverse effects caused by standing water or excessive moisture. Any spillages or splashes must be mopped dry swiftly and we strongly recommend installing adequate extractor fans. A good quality silicone sealant or varnish is required on any cut or exposed surface as well as a silicone seal between basin and unit, at worktop joints, around bath and plinth edges. Please consider carefully the fitting position of furniture in small shower rooms to ensure water from the shower cannot reach the furniture. If in doubt always consult a bathroom design specialist.

What our Warranty doesn't cover

Our warranty does not cover defects arising in respect of:

- Fair wear and tear
- Misuse or abuse
- Non-consumer use
- Failure to install or utilise the Highlife product in accordance with any written instructions, good plumbing practice or legislation
- Damage to wood furniture caused by standing water or inadequate room ventilation
- Electrical failure
- Moving parts or parts which are likely to perish or wear over time and normal usage (such as rubber seals, ceramic disc valves, mixer cartridges and thermostatic valves)
- Parts which do not form part of the material structure of the Highlife product
- Component failure deemed by Highlife to be due to hard or aggressive water supplies

Labour and other costs incurred by you (including direct and indirect losses) will not be covered by us. Our warranty is non-transferable and only applies to the purchaser or original end-user of the Highlife product and must be supported by an original purchase receipt.

The lifetime warranty is only applicable in the UK and ROI and is subject to certain terms and conditions which do not affect your statutory rights.

Note: Shower Valve Operating Pressures - recommended pressure requirement is 0.5 Bar (unless otherwise stated).

Gravity Fed Systems / Pumps – If you live in a property with a gravity fed system you will likely need to install a negative or universal pump to achieve the 0.5Bar pressure required for shower valves. Please seek advice from a qualified engineer or pump manufacturer. NB. Positive pumps will not work.

Bathroom Taps and Mixers Operating Pressures - minimum operating pressure is 0.2 Bar. Recommended pressure is 0.5 Bar (unless otherwise stated).

How to claim under our Warranty

For products under 1 year old you must first contact your place of purchase. If they deem the fault to be covered under warranty, they will contact us with a view to supplying the necessary replacement part/parts.

For products more than 1 year old please contact us direct with proof of purchase. We will endeavour to supply the replacement part/parts required, subject to exclusions. E&OE.
