EXCEPTIONAL EVERYDAY.

Flair has been designing showering solutions for over 70 years and perfecting them since. Our products are beautifully designed and expertly engineered to stand the test of time in the busiest of bathrooms. At Flair our vision is to produce beautifully designed, expertly crafted showering solutions for every customer, every budget, style & space.

The tradition of design excellence continues with the launch of our Flair PRO Essential Collections; an extensive portfolio of shower enclosures, wetrooms, and bathscreens that are tailored to meet the exacting demands of trade professionals.

Flair PRO Essential Collections are engineered for quick installation without having to compromise on quality, look and feel. We are trusted for our commitment to delivering innovative solutions that make your job quicker and easier.

All backed by Flair's 20 year guarantee.

FIND YOUR FLAIR.

VERVE PRO

Step 1

Align the horizontal profile and vertical shower door profiles together so they are in a straight upward position.

flair
PRO
The Hallmark
of Innovation

Step 2

Slide the pre-assembled click-fit PRO bracket into place on the vertical profile so the snap hook smoothly locks into the snap fit access port, connecting the two profiles and forming a secure screw-free joint.

SCREW-FREE ASSEMBLY SYSTEM FOR QUICK & EASY INSTALLATION.

TRAYS

Extensive selection of shower tray shapes and sizes to complement your bathroom.

SHOWER TRAY INSTALLATION

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting.

Fitting of Shower Tray is acceptance of quality.

KEY FEATURES

SHOWER TRAY INSTALLATION
All shower trays must be installed as per instructions supplied. Please note: Silicone sealants, foams, mastics, installation compound adhesive etc. must not be used as a substitute for cement. Ensure shower tray is installed 100% level and water test to ensure it is draining correctly. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

ANTI-SLIP SHOWER TRAYS

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

EASY PLUMB KIT

SUITS ALL SLIMLINE SHOWER TRAYS

Slimline easy plumb shower kits have adjustable legs to comply with building regulations to assist in installation and for maintenance of waste outlets if required after building settlement.

The slimline easy plumb kit provides this access without compromising on style in the bathroom.

An easy plumb tray can be made by using any of the Flair slimline trays and a kit. This will increase the height of the tray by 95mm.

Accessories are not to scale - for visual representation only.

QUALITY GUARANTEED

QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair products are CE approved and manufactured in accordance with ISO 9001:2015 Quality Assurance systems and ISO 14001:2015 Environmental Management systems.

All glass is toughened safety glass and produced to EN12150. Flair products are performance tested to EN14428, ensuring the highest industry criteria is met.

Essential Collections

Essential Collections are covered by a 20 year guarantee against manufacturer defect excluding Hydro Express.

Hydro Express is covered by a 10 year guarantee against manufacturer defect.

This guarantee is valid on condition that the goods are installed and maintained in accordance with the products fitting instructions and best practices.

Non glass and detachable parts such as rollers, seals etc. are subject to normal wear and tear during usage and are under guarantee for 24 months from time of purchase.

Please complete your product guarantee card included in the components box or register online at flairshowers.com/register.

Note: Proof of purchase is necessary to validate your guarantee so retain purchase receipt for your Flair product.

If a Flair shower enclosure is defective in materials or manufacture, please contact us on +353 42 966 8000.

CLEANEASY & CLEARVUE GLASS TREATMENT SYSTEM

Essential Collections shower doors, wetroom panels and bathscreens are supplied with a special glass coating designed to reduce limescale build up and make cleaning the glass easier.

AFTERSALES & SPARE PARTS SERVICE

Flair is 100% committed to customer service excellence.

We carry a full range of spare parts for each product range and have dedicated aftersales specialists to deal with any issues you may have.

If you have any queries, please contact Flair on +353 42 966 8000.

RETURN POLICY

Flair will not accept return of any product that has been opened.

We do not accept return of any product if the packaging has been damaged.

If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

SHOWER DOOR INSTALLATION ADVICE

BEFORE YOU INSTALL YOUR SHOWER ENCLOSURE PLEASE READ ALL INSTRUCTIONS. FAILURE TO DO SO MAY LEAD TO INVALIDATION OF YOUR GUARANTEE.

Flair Showers Ltd will not accept responsibility for any loss or damage, however caused, if the shower enclosure has not been installed as per the instructions.

- The shower tray MUST be fitted 100% level. The shower tray must be sealed correctly to prevent any water leakage.
- Glass edges are vulnerable and should be treated with care at all times. Contact with hard surfaces may result in glass breakage if due care is not taken.
- Check walls for electrical cabling or water pipes before drilling.
- Your shower enclosure, Bathscreen or wetroom must be inspected before installation. Check for all visual defects on the product before installation. Once the enclosure has been installed no claims of damage or defect will be accepted. Fitting of shower enclosure is acceptance of quality.
- The wall plugs supplied with the shower door are for use in solid walls. Timber frame, stud partition walls will require alternative fixings.
- Ensure vertical wall profiles are level and are an equal distance in from the tray.
- Shower Doors, Wetroom Screens, Bathscreens and Side Panels are adjustable between the dimensions stated. All dimensions are approximate.
- Ensure adjustment at wall profiles are equal at both sides and that all screws are fully tightened.
- Ensure hinges are level and securely fitted to the glass.
- Ensure magnets are the right orientation and are attracting rather than repelling.
- The shower enclosure should be sealed on the outside only using silicone sealant.

- Care must be taken during assembly. Flair will not accept responsibility where incorrect assembly results in undue stress being put on any components in this product.
- If there are any manufacturer defects, please call Flair Service Line on 0800 180 8050.
- Note: If a problem has been caused by incorrect installation, a call-out charge will apply for the Flair technical engineer's time. Subsequent charges will apply "to fix" a problem caused by incorrect installation.

BATHSCREEN INSTALLATION

The Bathscreen must be installed on a 100% level surface with the bath edge free from obstructions.

Bathscreens should not be used on a bath with roll top rim, stepped edge rim or where the bath handle void meets the Bathscreen seal. This will impact on the performance of the bathscreen and the guarantee will be void. The Bathscreen should be fitted to the inside edge of the bath only.

A Bathscreen acts as a water deflector and is not 100% waterproof. If used appropriately under normal showering conditions and installed to the inside edge of the bath, water will be deflected into the showering area. Bathscreens are not suitable for power showers.

SHOWER TRAY INSTALLATION

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

CLEANING GUIDELINES

- Glass: Use a soft cloth and mild detergent, rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water. Rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads. Only use detergents, cleaners and limescale removers with a pH of 5-8.
- The constant use of detergents will degrade the finish of the product over time if not thoroughly rinsed off.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with the use of a mild limescale remover.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.

CONDITIONS OF SALE

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

As part of our continuing policy of product improvement, we reserve the right to amend specifications, colours and prices without prior notice. Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads and shower wastes in the brochure is for illustrative purposes only.
