BATHROOM ESSENTIALS

Quality essentials to complete your
bathroom - pages 22 - 28

Here to help you create your
PERFECT BATHROOM

HELLO

Welcome to Highlife Bathroom Trade Essentials. Quality and integrity are values we stand by, and we're dedicated to providing beautiful bathrooms with an intricate attention to detail. We hold quality and expertise at our heart, and all of our innovative selection of products are hand-made or hand-finished with care.

For more products and inspiration download or pick up a copy of our full brochure.

LIFETIME WARRANTY

We are proud to offer you a Lifetime Warranty on the entire range of Alliance products - so you can buy with confidence and enjoy them at leisure.

What our Warranty covers

Our Lifetime Warranty covers faults due to manufacture of any Alliance product purchased by you against material defects for the lifetime of the product. At our discretion, we will replace, in part or whole, any product which is covered by our warranty. If a replacement Alliance product is offered by us, but identical goods are no longer available, then we reserve the right to replace the Alliance product with the nearest equivalent. All electrical items limited to a one year warranty.

Furniture installation and care

We want you to enjoy long and trouble free use of your Highlife bathroom furniture. All timber products are prone to adverse effects caused by standing water or excessive moisture. Any spillages or splashes must be dried off immediately and we strongly recommend installing adequate extractor fans. A good quality silicone sealant or varnish is required on any cut or exposed surface as well as a silicone seal between basin and unit, at worktop joints, around bath and plinth edges. Please consider carefully the fitting position of furniture in small shower rooms to ensure water from the shower cannot reach the furniture. If in doubt always consult a bathroom design specialist.

What our Warranty doesn't cover

Our warranty does not cover defects arising in respect of:

- Fair wear and tear
- Misuse or abuse
- Non-consumer use
- Failure to install or utilise the Alliance product in accordance with any written instructions, good plumbing practice or legislation
- Damage to wood furniture caused by standing water or inadequate room ventilation

- Electrical failure
- Moving parts or parts which are likely to perish or wear over time and normal usage (such as rubber seals, ceramic disc valves, mixer cartridges and thermostatic valves)
- Parts which do not form part of the material structure of the Alliance product
- Component failure deemed by Alliance to be due to hard or aggressive water supplies
- Labour and other costs incurred by you (including direct and indirect losses) will not be covered by us. Our warranty is non-transferable and only applies to the purchaser or original end-user of the Alliance product and must be supported by an original purchase receipt.

How to claim under our Warranty

For products under 1 year old you must first contact your place of purchase. If they deem the fault to be covered under warranty, they will contact us with a view to supplying the necessary replacement part/parts.

For products more than 1 year old please contact us direct with proof of purchase. We will endeavour to supply the replacement part/parts required, subject to exclusions. E&OE.

The lifetime warranty is only applicable in the UK and ROI and is subject to certain terms and conditions which do not affect your statutory rights.

Note: Shower Valve Operating Pressures - recommended pressure requirement is 0.5 Bar (unless otherwise stated).

Gravity Fed Systems / Pumps – If you live in a property with a gravity fed system you will likely need to install a negative or universal pump to achieve the 0.5Bar pressure required for shower valves. Please seek advice from a qualified engineer or pump manufacturer. NB. Positive pumps will not work.

Bathroom Taps and Mixers Operating Pressures - minimum operating pressure is 0.2 Bar. Recommended pressure is 0.5 Bar (unless otherwise stated).
