

Commercial Solutions

*Armitage
Shanks*

For washroom & bathroom
solutions you can rely on.

Ideal Standard

WELCOME TO OUR COMMERCIAL COLLECTION

Choosing the right products for any commercial project doesn't just come down to style or cost. It comes down to trust.

Whether it's having products designed for specific applications, a dedicated team ready to help you at every stage, spares available whenever they're needed or just a name your customer's familiar with, every fitter and contractor can rely on Armitage Shanks to help them get every project right first time.

Whatever your project, wherever you are, we're here at every step – solving problems fast, helping increase profit and making customers happy. We'll work with you to make your job easier, and make sure you have everything you need. It's as simple as that.

WE HAVE THE SOLUTION

Whatever type of project you're working on, you can trust us to have the right products – and be confident they meet or in many cases exceed regulations. For a full guide to our sector specific products and brochures see idealspec.co.uk.

Applications

-  Residential
-  Public Places
-  Hospitals & Healthcare
-  Education
-  Hotels

Features

-  Water Saving
-  Disabled Access
-  DOC M Compliant
-  Space Saving
-  Anti-Vandal

HEALTHCARE

With the emphasis on safety and compliance, healthcare sanitaryware is critical. It needs to provide water and remove waste efficiently while reducing cross infection and catering for the physical limitations of patients and residents – which is why we've worked with so many providers and our products are fully compliant.

PUBLIC SPACES

Be it a library, train station, airport, shopping mall or law court, every public building needs to cater for the wide-ranging demands of the people it serves. Armitage Shanks helps you meet almost every conceivable washroom need, from Part M solutions to anti-vandal products and electronic water management. And with spares readily available for years to come, you'll never have to fit the wrong product in a run of urinals, for example.

EDUCATION

Research shows clean, safe school toilets improve behaviour and have a positive influence on children's health, willingness to learn and attendance. We've long been the leaders in the education sector – our products are in more schools than any other manufacturer – so we know how tough and durable they need to be. For example, our Contour 21 toilet seats are screwed down through the pan with metal hinges and made of durable plastic, with a 5-year guarantee; while our Contour pans save 1.5 litres of water with every flush, compared with a standard cistern.

WORKPLACES

It doesn't just need to be safe, functional and pass all the relevant regulations. The washroom also says a lot about a company and its attitude and standards; people judge a place on the quality of its facilities, and a well-designed, attractive washroom also has a positive effect on productivity – which is why choosing Armitage Shanks can make all the difference.

HOSPITALITY

Guests expect to be impressed and inspired by their room's en-suite or a restaurant or bar's washroom. It's a case of balancing style with easy cleaning and maintenance, performance with durability and ergonomics with water saving – and Armitage Shanks consistently achieves that balance perfectly.

SPORTS

Today, good washroom facilities have come to be expected by sports fans and participants alike. And from large national stadia to cost-effective washrooms at local sports clubs, Armitage Shanks' products are chosen as they're designed for heavy demands while minimising water wastage.

DOC M

DOC M isn't just an important part of the Building Regulations; it's about making buildings more accessible to everyone and helping people live their lives more easily. Our experts have worked with many national disabled groups to develop specialist products that exceed every standard and meet every approval across a wide range of premises.

PRODUCT SAFETY & WATER SAVING

WRAS

The Water Regulations Advisory Scheme (WRAS) is funded by all UK water suppliers and makes sure water's delivered safely through promoting the Water Regulations and thoroughly testing products to make sure they comply.

These include:

- Testing component materials and lubricants to make sure they won't contaminate drinking water
- Endurance tests on all taps to check the quality and lifespan of the valve
- Checking products are designed and installed so there's no chance of contamination through stored or waste water entering the mains supply

UNIFIED WATER LABEL

The European Bathroom Forum developed this traffic light system to rate the water consumption of taps, showers, WC's, cisterns and baths, Full details can be found at europeanwaterlabel.eu.

You can trust every one of our products to meet all relevant regulations, as we work closely with the organisations behind them.

TMV

TMV2 and TMV3 certificates prove thermostatic mixing valves meet stringent requirements. TMV3 covers high-risk areas of health care premises, meeting specification D 08 to protect vulnerable people including children, older people and those with reduced mental or physical capacity from injury while washing or bathing.

TMV2 complies with UK Building Regulations to reduce the risk of scalding in domestic properties or similar situations.

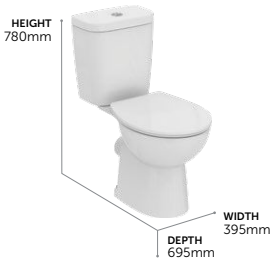

WCs

As the UK and Ireland’s leading manufacturer of WCs, you can trust Armitage Shanks and Ideal Standard to provide whatever you need, whatever your project.

Our commercial range covers everything from our industry-renowned Sandringham 21 collection to back-to-wall and wall-hung options to our very latest innovations, including Aquablade and Rimless Flush technology and Smartguard antimicrobial protection.

CISTERNS & FLUSHPLATES

Designed for effortless performance, our range includes ProSys, which provides solutions for all washroom fixtures – toilets, basins and urinals.

Also, Conceala 3 offers a reliable and cost effective range of concealed cisterns and flush actuators.

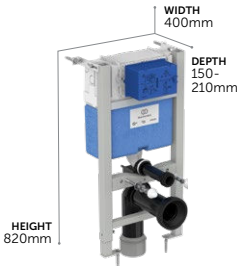

This cistern range is fully comprehensive, offering top, side and bottom water supply inlet models for both pneumatic and syphon lever operated flush activation. There's also a cable operated model for use in furniture units.

BASINS & SINKS

Total flexibility combined with total reliability. That's what our range of commercial basins and sinks offers you.

With a choice of basins – including pedestal, wall hung, semi-countertop, inset, under-pin, countertop and handrinse styles – all designed and manufactured to withstand the rigours of a hard-working environment.

For more practical applications, our heavy duty, no nonsense sinks are designed to handle the toughest use in utility areas. That's just what you want when you're choosing a commercial sink – and with Armitage Shanks, that's just what you'll get.

DOC M

DOC M is about making facilities more accessible to everyone, and we've created a range of specifically designed products and fittings to help you comply with the regulations.

We also pioneered the idea of DOC M packs – a ready-made solution with everything you need to create washrooms that are not only compliant, but safe, comfortable and easy to use. It's just the sort of help you can always rely on from us.

BATHS

Whatever the project,
we'll have a bath to suit.

Our extensive range offers a choice of materials, sizes, shapes and styles to suit virtually any installation, all with quality and reliability you can trust in a commercial application. So much so, we guarantee all our Idealform and Idealform Plus+ baths for 25 years, with 30-year guarantees on our heavy gauge steel models.

ProSys®

**Engineered for your
peace of mind.**

The ProSys® installation system provides complete pre-wall solutions for all washroom fixtures: toilets, bidets and basins. With different products for solid and dry wall applications, ProSys® is ideal for a wide variety of projects. The versatile range combines seamlessly with Ideal Standard's range of ceramics and fittings to ensure optimal performance. With end-to-end quality control and exceeding testing standards, the ProSys® system provides complete peace of mind.

GUARANTEE

Ideal Standard have been producing bathrooms for more than 100 years. Intensive and continuous testing is the key to class-leading durability. Designed to endure the impact of daily use, all of our products are guaranteed to perform stylishly and reliably, year after year.

Our confidence in the quality and reliability of Ideal Standard and Armitage Shanks products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

For full conditions, please refer to our website:
www.idealstandard.co.uk/about-us/guarantee

Ideal Standard pursue a policy of continuing improvement in design and performance of our products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints. Colour reproduction is as accurate as possible within the limitations of the printing process.
